Mr. Robert Roetgerman
5491 Co. Rd. 40
Minster, Ohio 45865

Dear Bob,

Per our telephone conversation I'm sending you a copy of a portion of the flood plain map (FIRM) that covers your property. Your property is in Zone X which indicates that you are not in a flood plain. If any loan institution or insurance company needs this information, they will ask for the Map Number that I have high lighted. (39011C0175 C)

The other maps I just threw in for your own information. The U.S.G.S. map shows your property at approximately 975' above mean sea level. (These contour lines are in 5' increments.)

Hope I copied enough area on the aerial photo to show where your lots will go.

If you have any further questions feel free to call me at the above numbers.

Sincerely,

Larry McLean
