**In re: AUG-75-4.07, 5.72 PID 25289**

**Dear Paul;**

**According to the FEMA flood plain maps, AUG-075-04.07 is not within the flood zone and will not require review by this department.**

**AUG-075-05.72 is within the FEMA flood zone. It is my understanding that this project is to have the structure's invert stabilized and that the end area of structure when completed, will be generally the same that currently exists. With this premise, no other reviews will be necessary by this department and the project is approved for construction.**
