Dear Vern,

I have enclosed copies from the Flood Insurance Rate Maps of the Federal Emergency Management Agency (FEMA) of the property owned by the Way International located along the West side of East Shelby Road and South of the Wierville Road (approximately 26 acres) for your reference.

As you can see from the map it appears to me that the entire 26 acre tract is very distant from being located within a flood zone and is designated a "ZONE X" on the map. It would be safe to say that any type of activity or land use within this 26 acres, be it for camping, recreational, or even for additional building sites would not require or be subject to Flood Insurance by FEMA.

Sincerely yours,

Doug Reinhart P.E., P.S.,
