Douglas Reinhart
COUNTY ENGINEER

March 17, 2009

Lot 33 – Breezewood Lane
St. Marys, OH 45885

To Whom It May Concern:

This letter is in response to a request for verifying the 100-year flood elevation for lot 33 on Breezewood Lane in St. Marys Ohio. The 100-year flood elevation for this site has been set at 873.0 ft. This elevation has been used as the BFE of all the lots around Grand Lake St. Marys. In addition, we have provided you with a benchmark elevation on an existing manhole (see attached sheet).

Should any construction take place on this parcel, the lowest adjacent grade to the structure should be no less than 873.0 feet. In the event that the lowest adjacent grade to the structure drops below this elevation, the structure will than be certified in the 100-year flood zone.

Sincerely,

Douglas Reinhart, P.E. P.S.
Auglaize County Engineer
Auglaize County Flood Plain Coordinator
