PAPERWORK REDUCTION ACT

Public reporting burden for this form is estimated to average 0.63 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and reviewing the form. You are not required to respond to this collection of information unless a valid OMB control number appears in the upper right corner of this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Federal Emergency Management Agency, 500 C Street, S.W., Washington, DC 20472, Paperwork Reduction Project (3067-0147).

This form must be completed by a registered professional engineer or licensed land surveyor. This form should not be used for requests involving channelization, bridges/culverts, or Fill in the FEMA-Designated (regulatory) Floodway; forms entitled Revisions to National Flood Insurance Program Maps (MT-2) should be used instead. The Elevation Information Form must be included for all requests, unless the request is for a determination in which the FIRM already shows the property to be CLEARLY outside the SFHA. Cases in which the determination for the property or structure is uncertain will require the submittal of elevation data to provide a definitive determination. If an Elevation Certificate has been completed for the subject property, it may be submitted in lieu of this form.

(See instructions for details)

Community Name: AUGLAIZE COUNTY, OHIO

Property Name or Address: 698 WILLIES WAY, ST. MARYS, OHIO

We hereby acknowledge receipt and review of this Letter of Map Revision (Based on Fill) request and have found that the completed or proposed project meets or is designed to meet all of the community's applicable floodplain management regulations, including the requirement that no fill be placed in the regulatory floodway. We understand that this request is being forwarded to FEMA for a possible map revision. For proposed projects, we understand that FEMA is being asked to provide comments on the potential effects of this project on the flood hazards of our community.

Community comments on the project:

Based upon the survey data from the Professional surveyor, Mr. Geeslin,
The parcel in question was out of the floodplain, (873.2) prior to the
placing of the fill.
