

SECTION 10; WAYNE TOWNSHIP

Coordinates based upon field
traverse by Kent Surveying,
July 1994

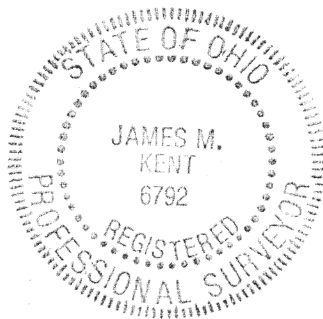

north

scale:

NOTE: Mr. Russell Sanders reported to me on July 7, 1994, that his father spoke of a stone at the center of Section 10 being approx. 3' east of a large tree. The area he spoke of has been bulldozed to remove fence lines. We were able to located a large diameter stump which was partially burned. No stone was found. The calculated center of Section was approx. 8' east of a point 3' east of the stump
